SECTION 3 - Reading Comprehension

5 questions | 15 minutes

Green Roofs

Roofs covered with plants are becoming more common in dense cities. The soil and vegetation can absorb rainwater and provide insulation for buildings. Green roofs may also create small habitats for insects and birds. In practical terms, green roofs can provide several benefits but require suitable design. However, their benefits vary with climate, plant choice, roof design, and maintenance. This limitation is important because not every existing building can support a green roof. For that reason, engineers must check that existing structures can support the added weight before installation.

9. What is the main purpose of the passage?

- A. Summarize the benefits and practical limits of green roofs
- B. compare two unrelated technologies without reaching a conclusion
- C. describe only the historical origins of green roofs
- D. argue that green roofs should be avoided in every situation

10. According to the passage, which statement is true?

- A. Green roofs can provide several benefits but require suitable design.
- B. The passage states that no practical limitations have been identified.
- C. The main benefit described in the passage has been completely disproved.
- D. The approach described is useful only in laboratory settings.

11. The word insulation is closest in meaning to:

- A. impossible to measure
- B. Material that reduces heat transfer
- C. unrelated to the subject
- D. changing without any pattern

12. Which of the following can be inferred from the passage?

- A. The author believes that one simple action can solve every related problem.
- B. The approach described has no costs or disadvantages.
- C. Further planning or evaluation is unnecessary once the approach is adopted.
- D. Not every existing building can support a green roof.

13. Which statement best reflects the author's view?

- A. The subject has already solved all of the problems discussed.
- B. The subject is entirely ineffective and should be abandoned.
- C. The subject has potential benefits, but its success depends on how it is implemented.
- D. The subject is useful only because it is inexpensive.

SECTION 4 - Restatements

3 questions | 6 minutes

14. Unless the hospital can train the entire staff, it will not be able to use the new system.

- A. Being able to train the entire staff is unnecessary for the hospital to use the new system.
- B. The hospital can use the new system even if it does not train the entire staff.
- C. The hospital must use the new system before it can train the entire staff.
- D. The hospital can use the new system only if it can train the entire staff.

15. It was not until the committee had managed to review all the evidence that it could make a final recommendation.

- A. The committee could make a final recommendation only after it had managed to review all the evidence.
