

AMIRNET PRACTICE TEST 22

Original practice simulation | Level: Advanced

Core structure	6 sections: Sentence Completion, Reading Comprehension, Restatements
Core timing	39 minutes total (4 + 4 + 15 + 6 + 6 + 4)
Print-adapted experimental section	2 sections: Grammar in Context + Word Formation
Suggested rule	Work under time pressure and check the answer key only at the end

This is original Zoom English practice material inspired by the current AMIRNET section structure. It is not an official test of the National Institute for Testing & Evaluation (NITE/MALU), and it does not guarantee any particular score or exemption level.

SECTION 1 - Sentence Completion

4 questions | 4 minutes

1. The new policy is intended to help managers ____ additional training for all new employees.

- A. reduce
- B. anticipate
- C. require
- D. reconcile

2. After a lengthy discussion, the committee agreed to ____ the main cause of the unexpected delay.

- A. identify
- B. maintain
- C. reduce
- D. compensate

3. The report described the explanation presented in the final report as ____, meaning it was logical and well organized.

- A. coherent
- B. obsolete
- C. efficient
- D. scarce

4. Researchers considered the improvement in the company's performance ____ because it was large in amount or importance.

- A. reliable
- B. available
- C. vulnerable
- D. substantial

SECTION 2 - Sentence Completion

4 questions | 4 minutes

5. It became clear that the results obtained in repeated trials was ____ - it was remaining the same or following a pattern.

- A. tentative
- B. gradual
- C. temporary
- D. consistent

6. The study examined the ____ underlying the original economic model rather than treating it as unimportant.

- A. factor
- B. incentive
- C. assumption
- D. method

7. Reviewers judged the software used by the old control system to be ____ because it was no longer useful because something newer exists.

- A. obsolete
- B. temporary
- C. reliable
- D. significant

8. According to the final assessment, small coastal communities during severe storms was ____: it was easily harmed or affected.

- A. apparent
- B. substantial
- C. meticulous
- D. vulnerable

SECTION 3 - Reading Comprehension

5 questions | 15 minutes

Dark Sky Lighting

Excessive outdoor lighting can make it difficult to see stars and can affect some nocturnal animals. This development is often justified by the fact that dark-sky designs aim to direct light downward and use only as much brightness as necessary; moreover, this does not mean removing lighting from streets or public spaces. Taken together, these points suggest that dark-sky lighting tries to reduce unnecessary light without sacrificing useful illumination. Yet the apparent advantages should not be treated as automatic, because well-designed fixtures can improve visibility by reducing glare while limiting light that escapes into the sky. A careful interpretation therefore requires attention to the conditions under which the method is used. In particular, reducing sky glow does not require eliminating all outdoor lighting. Consequently, communities often begin by replacing the most inefficient fixtures rather than changing every light at once.

9. What is the main purpose of the passage?

- A. compare two unrelated technologies without reaching a conclusion
- B. Explain the goals and methods of dark-sky lighting
- C. argue that dark sky lighting should be avoided in every situation
- D. describe only the historical origins of dark sky lighting

10. According to the passage, which statement is true?

- A. Dark-sky lighting tries to reduce unnecessary light without sacrificing useful illumination.
- B. The approach described is useful only in laboratory settings.
- C. The passage states that no practical limitations have been identified.
- D. The main benefit described in the passage has been completely disproved.

11. The word glare is closest in meaning to:

- A. Uncomfortably bright light that makes seeing harder
- B. impossible to measure
- C. unrelated to the subject
- D. changing without any pattern

12. Which of the following can be inferred from the passage?

- A. Reducing sky glow does not require eliminating all outdoor lighting.
- B. The approach described has no costs or disadvantages.
- C. The author believes that one simple action can solve every related problem.
- D. Further planning or evaluation is unnecessary once the approach is adopted.

13. Which statement best reflects the author's view?

- A. The subject is useful only because it is inexpensive.
- B. The subject is entirely ineffective and should be abandoned.
- C. The subject has already solved all of the problems discussed.
- D. The subject has potential benefits, but its success depends on how it is implemented.

SECTION 4 - Restatements

3 questions | 6 minutes

14. Unless the department can consult outside experts, it will not be able to adopt the proposal.

- A. The department must adopt the proposal before it can consult outside experts.
- B. The department can adopt the proposal even if it does not consult outside experts.
- C. Being able to consult outside experts is unnecessary for the department to adopt the proposal.
- D. The department can adopt the proposal only if it can consult outside experts.

15. It was not until the manufacturer had managed to pass the quality inspection that it could resume deliveries.

- A. The need to pass the quality inspection arose only after the manufacturer had already been able to resume deliveries.
- B. The manufacturer could resume deliveries only after it had managed to pass the quality inspection.
- C. The manufacturer could resume deliveries before it managed to pass the quality inspection.
- D. The manufacturer could resume deliveries without ever having to pass the quality inspection.

16. Although the costs were higher than expected, the project was completed on schedule.

- A. The project was completed on schedule because the costs were higher than expected.
- B. Despite the fact that the costs were higher than expected, the project was completed on schedule.
- C. Because the costs were higher than expected, the opposite outcome occurred.
- D. If the costs were higher than expected, the project was completed on schedule would not have happened.

SECTION 5 - Restatements

3 questions | 6 minutes

17. Few people expected the new treatment to become widely used in such a short time.

- A. Very few people ever used the new treatment.
- B. Most people were certain from the start that the treatment would be widely used immediately.
- C. The new treatment became widely used more quickly than most people had expected.
- D. The treatment took longer to become widely used than most people expected.

18. Researchers no longer rely exclusively on manual measurements.

- A. Researchers are now required to rely only on manual measurements.
- B. Researchers have never used manual measurements.
- C. Researchers once relied only on manual measurements, but this is no longer the case.
- D. Researchers have recently stopped using all non-manual measurements.

19. The new route is considerably shorter than the old route.

- A. The old route is considerably longer than the new route.
- B. The two routes are approximately the same length.
- C. The new route is considerably longer than the old route.
- D. The sentence does not provide any comparison between the routes.

SECTION 6 - Sentence Completion

4 questions | 4 minutes

20. The report emphasized the ____ for companies to invest in cleaner technology.

- A. discrepancy
- B. assumption
- C. priority
- D. incentive

21. Officials were asked to ____ whether the samples had been contaminated before making a final decision.

- A. ascertain
- B. diminish
- C. compensate
- D. justify

22. To address the situation effectively, the team plans to ____ the long-term effectiveness of the treatment.

- A. diminish
- B. compensate
- C. contradict
- D. reduce

23. Experts recommended that the agency ____ the new findings with the earlier theory as soon as possible.

- A. reconcile
- B. obtain
- C. prevent
- D. allocate

SECTION 7 - Experimental Practice: Grammar in Context 4 questions | 4 minutes

24. The study, which _____ over five years, included participants from six regions.

- A. has conduct
- B. conducting
- C. was conducted
- D. were conducted

25. Had the warning arrived earlier, the team _____ the equipment before the storm.

- A. will have moved
- B. has moved
- C. can move
- D. could have moved

26. The report recommends that each sample _____ twice before the results are published.

- A. was testing
- B. be tested
- C. is tested
- D. tests

27. Only after the second trial _____ why the first experiment had failed.

- A. the researchers understood
- B. did the researchers understand
- C. the researchers had understand
- D. do the researchers understand

SECTION 8 - Experimental Practice: Word Formation 4 questions | 3 minutes

28. The new process has improved the _____ of the entire system.

- A. efficient
- B. efficiencies
- C. efficiently
- D. efficiency

29. The committee requested a more detailed _____ of the proposed changes.

- A. explaining
- B. explanatory
- C. explain
- D. explanation

30. The discovery was completely ____; the team had been searching for something else.

- A. accidental
- B. accident
- C. accidents
- D. accidentally

31. Regular maintenance can greatly increase the ____ of the equipment.

- A. rely
- B. reliable
- C. reliably
- D. reliability

ANSWER KEY

Check only after completing the test

Q	Ans	Q	Ans	Q	Ans	Q	Ans
1	C	2	A	3	A	4	D
5	D	6	C	7	A	8	D
9	B	10	A	11	A	12	A
13	D	14	D	15	B	16	B
17	C	18	C	19	A	20	D
21	A	22	A	23	A	24	C
25	D	26	B	27	B	28	D
29	D	30	A	31	D		

Training note: AMIRNET is adaptive, so a paper simulation cannot reproduce the exact score calculation or the way the computer changes difficulty between sections. Use these tests to build speed, vocabulary, reading accuracy, and restatement skills.
