

AMIRNET PRACTICE TEST 25

Original practice simulation | Level: Advanced

Core structure	6 sections: Sentence Completion, Reading Comprehension, Restatements
Core timing	39 minutes total (4 + 4 + 15 + 6 + 6 + 4)
Print-adapted experimental section	2 sections: Grammar in Context + Word Formation
Suggested rule	Work under time pressure and check the answer key only at the end

This is original Zoom English practice material inspired by the current AMIRNET section structure. It is not an official test of the National Institute for Testing & Evaluation (NITE/MALU), and it does not guarantee any particular score or exemption level.

03-6202111

SECTION 1 - Sentence Completion

4 questions | 4 minutes

1. Researchers discussed the ____ supporting the researchers' conclusion in detail.

- A. incentive
- B. evidence
- C. priority
- D. factor

2. The committee focused on the ____ for measuring changes in water quality before reaching a decision.

- A. method
- B. incentive
- C. evidence
- D. consequence

3. The committee said that clean water in the region during the drought seemed ____, since it was not available in sufficient quantity.

- A. coherent
- B. scarce
- C. ambiguous
- D. vulnerable

4. Reviewers judged the examples chosen for the presentation to be ____ because it was closely connected to the subject.

- A. obsolete
- B. relevant
- C. available
- D. essential

SECTION 2 - Sentence Completion

4 questions | 4 minutes

5. The analysis explored the ____ on the amount of money the project could spend and its wider importance.

- A. consequence
- B. constraint
- C. discrepancy
- D. assumption

6. The organization decided to ____ a rise in demand during the holiday season after reviewing the latest information.

- A. anticipate
- B. replace
- C. undergo
- D. contradict

7. Researchers considered the wording of the final clause ____ because it was open to more than one interpretation.

- A. substantial
- B. vulnerable
- C. available
- D. ambiguous

8. It became clear that the records kept by the laboratory staff was ____ - it was extremely careful and precise.

- A. coherent
- B. meticulous
- C. unprecedented
- D. plausible

SECTION 3 - Reading Comprehension

5 questions | 15 minutes

Mangrove Forests

Mangroves grow along tropical and subtropical coasts where land meets the sea. This development is often justified by the fact that their complex roots can trap sediment, provide habitat for young fish, and reduce the force of some waves; moreover, coastal development and changes in water flow have damaged mangrove areas in many regions. Taken together, these points suggest that mangroves provide multiple coastal benefits but restoration must address habitat conditions. Yet the apparent advantages should not be treated as automatic, because restoration works best when projects first restore suitable tidal conditions rather than simply planting trees. A careful interpretation therefore requires attention to the conditions under which the method is used. In particular, planting alone may fail if water conditions are unsuitable. Consequently, successful conservation therefore depends on understanding the coastal system as a whole.

9. What is the main purpose of the passage?

- A. describe only the historical origins of mangrove forests
- B. Describe mangrove benefits and an important principle of restoration
- C. compare two unrelated technologies without reaching a conclusion
- D. argue that mangrove forests should be avoided in every situation

10. According to the passage, which statement is true?

- A. The passage states that no practical limitations have been identified.
- B. The approach described is useful only in laboratory settings.
- C. Mangroves provide multiple coastal benefits but restoration must address habitat conditions.
- D. The main benefit described in the passage has been completely disproved.

11. The word **tidal** is closest in meaning to:

- A. unrelated to the subject
- B. changing without any pattern
- C. Related to the regular rise and fall of sea level
- D. impossible to measure

12. Which of the following can be inferred from the passage?

- A. The author believes that one simple action can solve every related problem.
- B. Planting alone may fail if water conditions are unsuitable.
- C. Further planning or evaluation is unnecessary once the approach is adopted.
- D. The approach described has no costs or disadvantages.

13. Which statement best reflects the author's view?

- A. The subject is entirely ineffective and should be abandoned.
- B. The subject has already solved all of the problems discussed.
- C. The subject is useful only because it is inexpensive.
- D. The subject has potential benefits, but its success depends on how it is implemented.

SECTION 4 - Restatements

3 questions | 6 minutes

14. Unless the architects can finish the environmental study, it will not be able to submit the plans.

- A. The architects can submit the plans only if it can finish the environmental study.
- B. Being able to finish the environmental study is unnecessary for the architects to submit the plans.
- C. The architects must submit the plans before it can finish the environmental study.
- D. The architects can submit the plans even if it does not finish the environmental study.

15. It was not until the company had managed to obtain final approval that it could launch the product.

- A. The company could launch the product without ever having to obtain final approval.
- B. The need to obtain final approval arose only after the company had already been able to launch the product.
- C. The company could launch the product only after it had managed to obtain final approval.
- D. The company could launch the product before it managed to obtain final approval.

16. Although the initial results were disappointing, the researchers continued the study.

- A. Despite the fact that the initial results were disappointing, the researchers continued the study.
- B. Because the initial results were disappointing, the opposite outcome occurred.
- C. If the initial results were disappointing, the researchers continued the study would not have happened.
- D. The researchers continued the study because the initial results were disappointing.

SECTION 5 - Restatements

3 questions | 6 minutes

17. Few people expected the local initiative to attract national attention in such a short time.

- A. The local initiative attracted national attention more quickly than most people had expected.
- B. Most people expected the initiative to attract national attention immediately.
- C. The initiative attracted national attention more slowly than expected.
- D. The initiative received no attention outside the local area.

18. Students no longer submit every assignment on paper.

- A. Students used to submit every assignment on paper, but they do not do so now.
- B. Students have never submitted assignments on paper.
- C. Students have recently begun submitting all assignments on paper.
- D. Students are now required to submit every assignment on paper.

19. The second survey included more participants than the first survey.

- A. Both surveys included the same number of participants.
- B. The first survey included more participants than the second survey.
- C. Fewer people participated in the first survey than in the second survey.
- D. The number of participants in the two surveys is unknown.

SECTION 6 - Sentence Completion

4 questions | 4 minutes

20. The committee said that the scale of the increase in online enrollment seemed ____, since it was never known or experienced before.

- A. substantial
- B. reluctant
- C. unprecedented
- D. relevant

21. Experts drew attention to the ____ of the findings for future public policy in the final discussion.

- A. constraint
- B. consensus
- C. implication
- D. discrepancy

22. After a lengthy discussion, the committee agreed to ____ pressure on the overcrowded transport system.

- A. alleviate
- B. identify
- C. contradict
- D. replace

23. The organization decided to ____ the claims made in the earlier report after reviewing the latest information.

- A. contradict
- B. anticipate
- C. derive
- D. compensate

SECTION 7 - Experimental Practice: Grammar in Context

4 questions | 4 minutes

24. If the researchers _____ more complete data, they would be able to test the theory more carefully.

- A. having
- B. will have
- C. have
- D. had

25. By the time the inspection began, the engineers _____ the most urgent repairs.

- A. had completed
- B. have completing
- C. will completed
- D. complete

26. The new guidelines _____ by every department before the end of the month.

- A. must be followed
- B. following
- C. have follow
- D. must follow

27. Neither the manager nor the assistants _____ aware of the change when the notice was sent.

- A. were
- B. was
- C. has been
- D. is

SECTION 8 - Experimental Practice: Word Formation

4 questions | 3 minutes

28. The rapid _____ of the city created a need for additional public transport.

- A. expand
- B. expansion
- C. expanding
- D. expansive

29. The researchers described the result as statistically ____.

- A. signify
- B. significantly
- C. significance
- D. significant

30. The equipment must be handled ____ to avoid damaging the sensors.

- A. careful
- B. carefully
- C. care
- D. carefulness

31. There was considerable ____ about whether the project could be completed on time.

- A. uncertainty
- B. uncertainness
- C. uncertainly
- D. uncertain

ANSWER KEY

Check only after completing the test

Q	Ans	Q	Ans	Q	Ans	Q	Ans
1	B	2	A	3	B	4	B
5	B	6	A	7	D	8	B
9	B	10	C	11	C	12	B
13	D	14	A	15	C	16	A
17	A	18	A	19	C	20	C
21	C	22	A	23	A	24	D
25	A	26	A	27	A	28	B
29	D	30	B	31	A		

Training note: AMIRNET is adaptive, so a paper simulation cannot reproduce the exact score calculation or the way the computer changes difficulty between sections. Use these tests to build speed, vocabulary, reading accuracy, and restatement skills.
