

AMIRNET PRACTICE TEST 27

Original practice simulation | Level: Advanced challenge

Core structure	6 sections: Sentence Completion, Reading Comprehension, Restatements
Core timing	39 minutes total (4 + 4 + 15 + 6 + 6 + 4)
Print-adapted experimental section	2 sections: Grammar in Context + Word Formation
Suggested rule	Work under time pressure and check the answer key only at the end

This is original Zoom English practice material inspired by the current AMIRNET section structure. It is not an official test of the National Institute for Testing & Evaluation (NITE/MALU), and it does not guarantee any particular score or exemption level.

SECTION 1 - Sentence Completion

4 questions | 4 minutes

1. Experts recommended that the agency ____ additional training for all new employees as soon as possible.

- A. require
- B. inhibit
- C. identify
- D. improve

2. The new policy is intended to help managers ____ the main cause of the unexpected delay.

- A. prevent
- B. improve
- C. implement
- D. identify

3. According to the final assessment, the explanation presented in the final report was ____: it was logical and well organized.

- A. available
- B. coherent
- C. scarce
- D. accurate

4. The report described the improvement in the company's performance as ____, meaning it was large in amount or importance.

- A. accurate
- B. substantial
- C. reliable
- D. available

SECTION 2 - Sentence Completion

4 questions | 4 minutes

5. Researchers considered the results obtained in repeated trials ____ because it was remaining the same or following a pattern.

- A. accurate
- B. consistent
- C. scarce
- D. relevant

6. The committee focused on the ____ underlying the original economic model before reaching a decision.

- A. factor
- B. consensus
- C. implication
- D. assumption

7. The committee said that the software used by the old control system seemed ____, since it was no longer useful because something newer exists.

- A. scarce
- B. obsolete
- C. apparent
- D. unprecedented

8. Reviewers judged small coastal communities during severe storms to be ____ because it was easily harmed or affected.

- A. obsolete
- B. vulnerable
- C. essential
- D. substantial

SECTION 3 - Reading Comprehension

5 questions | 15 minutes

Adaptive Reuse

Architects sometimes convert old industrial or commercial buildings to new purposes. This development is often justified by the fact that a former warehouse may become housing, offices, or a cultural center while retaining parts of its original structure; moreover, reuse can preserve local character and avoid some demolition waste. Taken together, these points suggest that adaptive reuse can preserve buildings but requires careful assessment. Yet the apparent advantages should not be treated as automatic, because older buildings may also contain structural problems, contamination, or layouts that are difficult to adapt. A careful interpretation therefore requires attention to the conditions under which the method is used. In particular, old buildings may need major work before they can serve a new purpose. Consequently, projects succeed when designers evaluate both historical value and practical constraints early in the process.

9. What is the main purpose of the passage?

- A. compare two unrelated technologies without reaching a conclusion
- B. argue that adaptive reuse should be avoided in every situation
- C. describe only the historical origins of adaptive reuse
- D. Explain the advantages and challenges of adapting old buildings

10. According to the passage, which statement is true?

- A. Adaptive reuse can preserve buildings but requires careful assessment.
- B. The approach described is useful only in laboratory settings.
- C. The passage states that no practical limitations have been identified.
- D. The main benefit described in the passage has been completely disproved.

11. The word constraints is closest in meaning to:

- A. Limitations that restrict what can be done
- B. changing without any pattern
- C. unrelated to the subject
- D. impossible to measure

12. Which of the following can be inferred from the passage?

- A. Further planning or evaluation is unnecessary once the approach is adopted.
- B. Old buildings may need major work before they can serve a new purpose.
- C. The author believes that one simple action can solve every related problem.
- D. The approach described has no costs or disadvantages.

13. Which statement best reflects the author's view?

- A. The subject is entirely ineffective and should be abandoned.
- B. The subject has already solved all of the problems discussed.
- C. The subject has potential benefits, but its success depends on how it is implemented.
- D. The subject is useful only because it is inexpensive.

SECTION 4 - Restatements

3 questions | 6 minutes

14. Unless the agency can complete a public consultation, it will not be able to change the regulation.

- A. The agency must change the regulation before it can complete a public consultation.
- B. The agency can change the regulation even if it does not complete a public consultation.
- C. Being able to complete a public consultation is unnecessary for the agency to change the regulation.
- D. The agency can change the regulation only if it can complete a public consultation.

15. It was not until the university had managed to hire more instructors that it could expand the program.

- A. The university could expand the program without ever having to hire more instructors.
- B. The university could expand the program only after it had managed to hire more instructors.
- C. The university could expand the program before it managed to hire more instructors.
- D. The need to hire more instructors arose only after the university had already been able to expand the program.

16. Although several experts expressed doubts, the committee approved the proposal.

- A. If several experts expressed doubts, the committee approved the proposal would not have happened.
- B. Because several experts expressed doubts, the opposite outcome occurred.
- C. The committee approved the proposal because several experts expressed doubts.
- D. Despite the fact that several experts expressed doubts, the committee approved the proposal.

SECTION 5 - Restatements

3 questions | 6 minutes

17. Few people expected the new treatment to become widely used in such a short time.

- A. The treatment took longer to become widely used than most people expected.
- B. Very few people ever used the new treatment.
- C. Most people were certain from the start that the treatment would be widely used immediately.
- D. The new treatment became widely used more quickly than most people had expected.

18. Researchers no longer rely exclusively on manual measurements.

- A. Researchers have recently stopped using all non-manual measurements.
- B. Researchers have never used manual measurements.
- C. Researchers once relied only on manual measurements, but this is no longer the case.
- D. Researchers are now required to rely only on manual measurements.

19. The new route is considerably shorter than the old route.

- A. The two routes are approximately the same length.
- B. The sentence does not provide any comparison between the routes.
- C. The old route is considerably longer than the new route.
- D. The new route is considerably longer than the old route.

SECTION 6 - Sentence Completion

4 questions | 4 minutes

20. The analysis explored the ____ for companies to invest in cleaner technology and its wider importance.

- A. incentive
- B. consensus
- C. method
- D. implication

21. The organization decided to ____ whether the samples had been contaminated after reviewing the latest information.

- A. implement
- B. ascertain
- C. facilitate
- D. improve

22. Officials were asked to ____ the long-term effectiveness of the treatment before making a final decision.

- A. require
- B. allocate
- C. obtain
- D. diminish

23. To address the situation effectively, the team plans to ____ the new findings with the earlier theory.

- A. justify
- B. reconcile
- C. implement
- D. anticipate

SECTION 7 - Experimental Practice: Grammar in Context 4 questions | 4 minutes

24. The device is designed to operate even when the temperature ____ below freezing.

- A. falls
- B. falling
- C. has fell
- D. will fall

25. The committee asked whether the revised plan ____ all of the safety requirements.

- A. meeting
- B. met
- C. meet
- D. has meet

26. No sooner ____ the announcement than several organizations requested further details.

- A. the agency had made
- B. had the agency made
- C. has the agency make
- D. did the agency made

27. The building would require fewer repairs if it ____ more regularly in the past.

- A. has maintained
- B. was maintaining
- C. had been maintained
- D. maintains

SECTION 8 - Experimental Practice: Word Formation 4 questions | 3 minutes

28. The speaker presented the argument clearly and ____.

- A. persuasively
- B. persuade
- C. persuasive
- D. persuasion

29. The new measurements confirmed the ____ of the original estimate.

- A. accurate
- B. accurately
- C. accuracy
- D. accurateful

30. The two methods are similar in principle but differ ____ in cost.

- A. substantial
- B. substance
- C. substantially
- D. substantiate

31. The researchers emphasized the practical ____ of their findings.

- A. importance
- B. importantly
- C. important
- D. import

ANSWER KEY

Check only after completing the test

Q	Ans	Q	Ans	Q	Ans	Q	Ans
1	A	2	D	3	B	4	B
5	B	6	D	7	B	8	B
9	D	10	A	11	A	12	B
13	C	14	D	15	B	16	D
17	D	18	C	19	C	20	A
21	B	22	D	23	B	24	A
25	B	26	B	27	C	28	A
29	C	30	C	31	A		

Training note: AMIRNET is adaptive, so a paper simulation cannot reproduce the exact score calculation or the way the computer changes difficulty between sections. Use these tests to build speed, vocabulary, reading accuracy, and restatement skills.
